Human Resource management

Human Resource Departments ensure a competitive working environment by developing modern and flexible work models that increase productivity and reduce management costs.

Soft1 HRMS best meets the requirements of HR departments, by providing immediate and secure access to precise information, helping to make the right decisions. Moreover, **Soft1 myWorkplace**, the innovative employee engagement platform, integrates the digital transformation of all personnel management operations, freeing you from traditional hand-written processes, and optimises operations for employees so they can spend more time on value generating tasks.

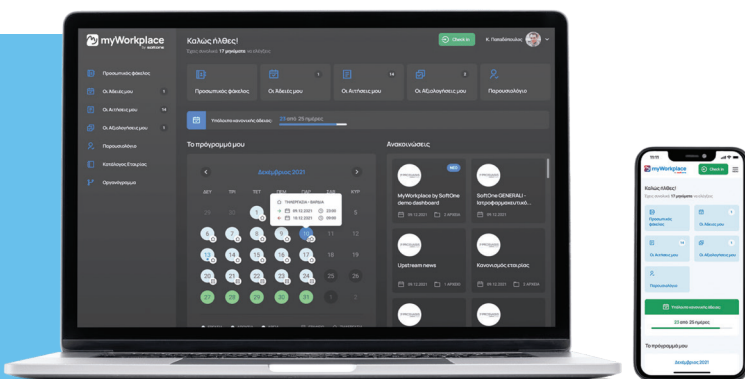

Human Resource Management system...

Soft1 HRMS is an integrated solution for the evaluation of employee performance, enabling HR departments to identify the training needs and the advancement potential of employees, while it manages CVs in a simple and easily comprehensible manner and creates a list with the most suitable candidates for each new position.

...and interactive communication platform

SOFT1 myWorkplace is an innovative employee engagement platform that offers instant and secure access to processes and information. Employees enter requests to their supervisors and/or the HR Department, receive updates

on their progress, have access to the work schedule, receive important personal and company announcements, etc.

Unique features

24/7 operation

Soft1 myWorkplace runs on the cloud, allowing requests by employees and their approval or rejection by their supervisors at any time, using any device that can be connected to the internet (**PC, Tablet, mobile phone**), without needing to be physically present at the company, facilitating workers who are working remotely or external associates.

Adaptability

Soft1 HRMS combined with **Soft1 myWorkplace** is the strategic partner of each HR department. The applications are designed to meet the demands of small and medium-sized businesses in a simple and user-friendly way, with practically unlimited configuration and expansion capabilities, to easily meet even the most complex and specialised needs of large and complicated companies.

Integrated management

Simplify and automate all HR management processes of your business with a functional and user-friendly HRMS system that can be tailored to your particular requirements.

Complete your digital transformation with **Soft1 myWorkplace**, the interactive communication platform where employees can enter all types of requests and receive automated updates on their progress, having direct access to their work schedule, payment receipts, personal and company notices, seminars and evaluations, etc., while their supervisors enter work schedules, access their department's attendance sheet, check the origin, evaluate their staff and approve or reject their requests.

More efficient work

Maximise the productivity of your employees enabling them to electronically process their requests themselves without needing to contact HR, reduce red-tape, directly support new business needs and quickly address daily HR management issues.

Improve the performance of your employees by continuously monitoring their education and training and provide your executives the right tools for the evaluation of their staff, that cut back the time used for the analysis and processing of the evaluation data by up to 50%.

Automatically update the **Soft1 Payroll** application with all the required actions (leave, sick days, absences, expansion of work time, etc.), saving time and increasing your efficiency.

Better workplace

Soft1 myWorkplace platform actively helps in the creation of a better workplace as it enables the interaction of employees with their supervisors, fosters a team spirit and allows employees to focus on their job, eliminating any unnecessary red tape. At the same time, the use of evaluation tools not only evaluates the performance of employees in terms of their job description, partnerships, behaviour and understanding of their role in the company, but also provides feedback to the business with information related to the perceptions of human resources actively contributing to the prevention of unpleasant situations.

Soft1 HRMS incorporates a number of tools that help you easily and accurately identify your most capable executives to make sure you always promote the right candidates to your company's most important positions, creating a meritocratic working environment.

Modules

Executive Management

Comprehensive records of executives with unlimited capabilities for the entry of corporate and personal details, electronic record-keeping per employee, detailed monitoring of training, qualifications, skills, tasks and targets

Attendance Management

Access by supervisors to the attendance sheet of their department - option for entry of shifts, absences, days-off, remote working, expansions of hours, etc., with instant notification of their staff and HR.
